OUR STORY

They say that taking the road less traveled can lead to unexpected treasures. At Naggiar Winery and Vineyards, this statement couldn't be more true. A surprising gem in the budding Sierra Foothills wine industry, Naggiar is much more than just an off-the-beaten-path treasure. Our winery is also the source of some of California's most desirable grapes. In fact, world-famous wineries often seek out our fruit – a vast array of varietals grown at the ideal 1,300 foot elevation. We save our most prized grapes, however, for the enjoyment of our family and guests. Under the tutelage of winemaker Derek Irwin, all of our wines are estate grown, produced and bottled – ripe with nuance, distinctly evocative, and always exceeding expectations.

Pair these unprecedented wines with our picturesque one hundred thirty-five acre estate and traditional Tuscan-style tasting room, and it is easy to see why wine enthusiasts, along with local residents, drive the scenic and historic Route 49 to visit Naggiar for memorable wine experiences.

Naggiar Vineyards is not only a destination winery producing quality wines. It is the residence of the Naggiar family. Founded by Mike and Diane Naggiar, it is now home to the extended Naggiar family and each family member has a hand in the family business.
